

I am in the business of traffic reporting! I do listen to XM radio. I am tired of tiring outdated dj's who think they have great ratings. Maybe its fun for those outside the biz but the insiders know it. When i spun the tunes...we had fun and were totally local. Our oldies station ain't playing oldies that this older guy wants to hear. Our jazz is programmed from Philly...maybe some album cuts. I can put on XM and enjoy the radio again..The 50;s channel makes me feel like i am back there.

So if local radio wants to go against XM, then do it with talented programming. Figure out why I listen to XM.

I am in favor of rejecting the petition.
